***Living Words of Encouragement* Author Encourages Believers to Live for Christ**

Sumter, SC – October 1, 2006 – Living Words of Encouragement author, Dr. Annette M. West, has just published her first book. After spending several years writing, preaching, teaching in churches, nursing homes and prisons, Dr. West has turned her talents to writing books from her many resources to share and spread Christian living principles.

“Dr. West has amassed and choreographed a book that displays the love of our Lord, Master and Savior. She displays a deep understanding of the encouraging and healing process through God by Faith,” states District Dean, South Carolina Baptist State Congress of Christian Education, Priscilla Loney.

Living Words of Encouragement is a thoughtful and simplified devotion designed to edify and uplift matured and young Christians alike. This book emphasizes the significance of daily devotion and meditating on the Scriptures. Living Words of Encouragement is currently available to order from Dr. West’s website at www.living4christ.org and will be in select bookstores on October 1, 2006.

Dr. West is an ordained minister with many years experience in working with various churches and outreach efforts. She was inspired to write these encouragements from the many requests from persons who had received motivation through the years. Living Words of Encouragement is dedicated to the outreach efforts in Sierra Leone Africa where all proceeds of this book are dedicated.

For more information about Living Word Outreach Ministry, please contact Dr. West at (803) 481-9768.
